

# 3-Pc Shaker Set

Create simple, attractive 22-1/2° beveled raised panels for mission or Shaker style furniture and cabinets

Box has flush-mounted magnetic catch.

- ▶ The stile and rail cutters cut a perfect 7/32" slot which creates a perfect fit for today's 1/4" undersized plywood - no more loose-fitting panels.
- ▶ If you want a raised panel, our raised panel cutter also creates the same 22-1/2° straight bevel. The panel cutter is also preset to make a 7/32" groove in the stiles and rails.
- ▶ The panel cutter can also be shimmed to increase the size of the panel to standard 1/4" to use with your standard stile and rail cutters.
- ▶ Stile and rail cutters have a 7/16" engagement.
- ▶ All of our bit sets are packaged in a beautiful, custom-designed hardwood case to keep your bits safe, clean and easy to find for many years of service.

This is the set you have been waiting for if you want to build Mission-style furniture or cabinets. The new 22-1/2° beveled profile on the pattern cut gives that simple Shaker look for your Mission-style doors, cabinets, or furniture.

"Today I built two Shaker doors with your Shaker set. From start to finish, including cutting the stock, it took me less than 30 minutes to build both doors. I could not be happier with my purchase. Your products are the highest quality. It's nice for once to get what I pay for!"
