

# Meet Master Cabinetmaker Marc Sommerfeld

...and take just 2 minutes to discover why you should order your cabinetmaking tools, bits and accessories from...

By the time Marc Sommerfeld graduated from Wayne State College in Nebraska in 1970, he was already on a path that would lead him to become one of America's foremost cabinetmaking authorities.

### Educating others becomes Marc's passion

It all began in 1971 with a 17-year career as industrial arts instructor and basketball coach at Iowa's Remsen-Union High School, where Marc perfected his easy-going, credible teaching style. In 1983, he launched a special woodworking program through which students designed and built grandfather clocks for their families...a program that eventually created heavy demand for an adult education class that Marc taught in the evenings.

### Teaching prompts outside-the-box innovation

Soon, his spare-time cabinetmaking for friends was growing so rapidly that he hired and taught an apprentice. Along the way, he developed dozens of new cabinetmaking methods, including better ways to build angled and curved cabinets...and lots more.

### Marc takes what he knows on the road

In 1990, Marc signed on for a 30-city woodworking show tour, demonstrating a unique pocket hole assembly system he had developed. Show attendees started asking Marc to record his techniques, prompting a series of seven instructional videos on the topic. Sommerfeld's Tools for Wood was off to a great start.

### How Marc's latest venture benefits YOU

After 17+ years of traveling the woodworking show circuit, Marc continues his insatiable quest for new procedures, educational materials and innovative product ideas to help cabinetmakers everywhere -- hobbyists and professionals alike -- work efficiently, precisely and rewardingly.

*By the way...he still teaches cabinetmaking and other courses from time-to-time.*

### THE BOTTOM LINE ...

Most of the products in this catalog were designed by Marc Sommerfeld to be better than their alternatives. This is not a statement we make lightly...but rather, one backed by Marc's experience and inventiveness --

**PLUS -- a 90-day Money-Back Satisfaction Guarantee!**

### SHIPPING EXCEPTIONS

There are no shipping or handling charges on any order except for router table tops and fences. Shipping outside the contiguous United States will be subject to shipping charges.
