

# SOMMERFELD'S TOOLS

For Wood

Nearly 7 square feet of rock-solid surface area to support your workpieces during operations

**1** Huge 36" x 27" extruded aluminum Table gives you plenty of support for your largest workpieces

- 3-5/8" dia. opening (without Insert Rings) accepts even your largest panel-raising bits

**2** Five pre-drilled holes for mounting Triton's 2-1/4 or 3-1/4 HP routers-- or any large Porter Cable plunge base router. Tops with no holes predrilled are available for other router types.

- 4 holes for router mounting – 1 hole for 2-1/4 Triton lift crank
- 2 threaded holes for starter pin (included)

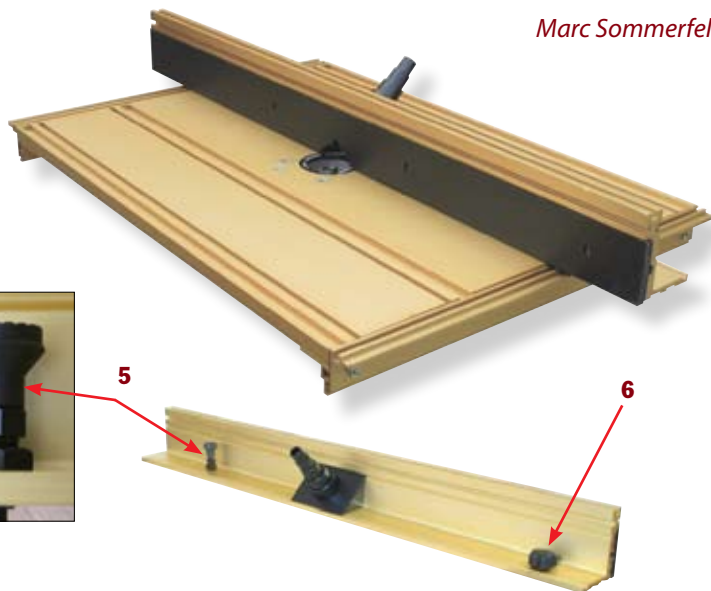

**3** (2) Table end tracks, each with two T-slots. One for 5/16" bolts w/ 1/2" hex heads – one for 3/8"-16 weld nuts

**4** (8) Tabletop T-slots. Four accept 5/16" bolts w/ 1/2" hex heads – four accept standard 3/4" miter gauge bar w/ or w/o T-slot washers. Great for jigs, fixtures, featherboards, etc.

**INCLUDES:** (8) twist-lock Insert Rings (Solid, 1/2", 3/4", 1", 1-1/4", 1-1/2", 2", 2-5/8" openings) w/ Spanner Locking Wrench • (3) Zero Clearance Fence Inserts • (2) 5/16"-18 threaded Knobs • Screw-in Starting Pin • 5/32" Allen driver • Nuts, bolts and assorted mounting hardware. • 16-page full-color instruction book.

*"This may not be the first router table you've ever bought...but once you've tried it out, you're certain to agree that it's the last one you'll ever need!"*

Marc Sommerfeld

Photo Actual Size

Item 1043

**...and 48" x 4-3/4" of easy-adjusting Fence to guide your stock through the cut**

**5** Spring-loaded Pin allows rapid pivot adjustments of Fence from one end – or use Locking Knobs **6** on both Fence ends if you prefer when working with cumbersome workpieces.

- Fence can be swapped end-for-end, allowing work from either side of Table
- 4-step Dust Port slides captive over full length of Fence in dovetail slots. Slide out of the way to access bit area for cleanout – accepts 1-1/4", 1-1/2", 2" & 2-1/4" I.D. fittings.

**7** Three T-Slots for attaching stops, hold-downs or similar devices using 5/16" bolts w/ 1/2" hex heads. Another slot on Fence face for mounting HDPE Sub-Fences.

- HDPE Sub-fences slide left to right and lock in T-slot... can be shimmed from behind for outfeed support when making full-height edge cuts.
- Zero clearance Fence Inserts (3 included w/ Fence) can be customized to match your bits.
